

Após [login no painel administrativo](#), acesse o menu **Networks** > **Add New**.

A seguinte tela será exibida:

A screenshot of the 'Add New Network' form. The form has a title 'Add New Network' and a text input field containing 'Campus Araquari'. Below this is a 'Details' section with two input fields: 'Domain' with the value 'http:// araquari.ifc.edu.br' and 'Path' with the value '/'. A note below the path field says 'Use "/" if you are unsure.'. There is also a 'Root Site' section with a 'Site Name' input field and a note: 'A new site needs to be created at the root of this network.'. On the right side of the form, there is a 'Network' dropdown menu showing 'Creating a network with 1 new site.' and two buttons: 'Cancel' and 'Create'.

1. Informe o nome do site (exemplo: Campus Araquari)
2. Informe o domínio obedecendo o formato **nomedocampus.ifc.edu.br**
3. Clique no botão "Create" 

4. No menu à esquerda, clique em "Sites IFC"
